

FAQ - Frequently Asked Questions

ESI Séjour - Scientific Stay & Internship Management Platform

Q1: What is ESI Séjour?

ESI Séjour is the official digital platform developed for the Direction de la Post Graduation et de la Recherche Scientifique (DPGR) at ESI. It automates the complete lifecycle of research internship and scientific stay requests ; from submission to final archival.

Q2: Who can use ESI Séjour?

The platform is designed for four user profiles: Researchers (teacher-researchers and doctoral students), DPGR Assistants, DPGR Administrators, and Super Administrators. Each role has specific access rights and functionalities.

Q3: How do I get my login credentials?

Credentials are provided by the DPGR or the Super Administrator. If you have not received yours, contact the DPGR directly. Use the "*Contact Us*" page available on the platform.

Q4: I forgot my password. What should I do?

Click the "*Mot de passe oublié*" link on the login page. Enter your registered email address, and a password reset link will be sent to you.

Q5: My account is locked. How do I unlock it?

After multiple failed login attempts, your account is temporarily locked for security reasons. Contact the Super Administrator to have it unlocked.

Q6: Can I change my password after logging in?

Yes. Navigate to your profile settings (accessible from the "*Mon Profil*" section in the sidebar) and update your password there.

Q7: How long does my session last?

For security, your session expires automatically after 60 minutes of inactivity. Save your work before stepping away to avoid losing unsaved progress.

Q8: How do I start a new request?

Log in to your account and click "Nouvelle Demande" in the sidebar. This opens the five-step submission wizard.

Q9: What documents do I need to upload?

You must upload at minimum your invitation letter from the host institution, Detailed itinerary of the stay and Curriculum Vitae (CV).

Q10: Which file formats are accepted for document uploads?

Accepted formats are PDF, DOCX, JPG, and PNG. The maximum file size per document is 5 MB.

Q11: Why can't I select a particular stay type?

The platform automatically determines which stay type you are eligible for based on your grade, enrollment status, and stay history. If a stay type is not available to you, verify your profile information under "*Mon Profil*" or consult the AI chatbot for eligibility explanations.

Q12: Can I edit a request after submitting it?

No. Once submitted, the request is locked and cannot be modified. If you need to correct any information, you must request a cancellation (only if your request is approved) and submit a new request.

Q13: What does "Save as Draft" mean?

Saving as draft (*Brouillon*) allows you to save your progress without officially submitting the request. Drafts are visible only to you and can be completed and submitted later.

Q14: What happens immediately after I submit my request?

Upon submission: the form is locked and timestamped, the request status changes from "*Brouillon*" to "*Soumis*", automatic eligibility verification is triggered, you receive a confirmation notification, and no further modifications are allowed.

Q15: Can I submit multiple requests at the same time?

Yes. You may submit multiple requests. However, your complete stay history is taken into account during scoring ; multiple simultaneous requests may affect your scores and eligibility.

Q16: How do I check the status of my request?

Go to "*Mes Demandes*" in the sidebar. All your requests are listed with color-coded status badges. Click any request to see the full status timeline and details.

Q17: How long does the deliberation process take?

Processing times depend on the Scientific Council's meeting schedule. You can monitor your request status in real time from your dashboard.

Q18: Will I be notified when a decision is made on my request?

Yes. You will receive an automatic notification in your notification center as soon as the decision is recorded. Notifications also appear as a badge count on the bell icon in the navigation bar.

Q19: How do I submit my final report?

After completing your stay, navigate to "*Mes Rapports*" in the sidebar, click "*Soumettre le rapport*", fill in the required fields, upload your report document (PDF or DOCX), and confirm submission.

Q20: What happens if I miss the report submission deadline?

The system sends automatic reminders before the deadline. Failure to submit your report on time may affect your eligibility for future requests.

Q21: What are Zone I and Zone II?

Zone I includes EU countries, Japan, Switzerland, USA, South Korea, China, UAE, Kuwait, Jordan, and Russia. Zone II covers all other countries. The classification is maintained by the Super Administrator.

Q22: How is my request scored?

The system evaluates your request against criteria configured in the evaluation grid for the current session. Priority criteria include the number of stays and days already consumed and the date of your last stay. The Scientific Council reviews the automatic score but retains full decision-making authority.

Q23: Can I see my score?

Scores and recommendations generated by the system are advisory tools for the Scientific Council. They are visible to Council members and administrators during the deliberation phase.

Q24: I can't upload my document. What should I check?

- Ensure the file format is PDF, DOCX, JPG, or PNG.
- Check that the file size does not exceed 5 MB.
- Verify your internet connection is stable.
- Do not upload password-protected or corrupted files.

Q25: I received an eligibility rejection but I believe I am eligible. What should I do?

Check your profile information (grade, enrollment status) under "*Mon Profil*". If the information appears incorrect, contact the DPGR Assistant using the "*Messagerie*" section in your profile or by using the chatbot available on the landing page.

Q26: The platform is not responding. What should I do?

Refresh your browser. If the issue persists, clear your browser cache and retry. If the problem continues, contact the DPGR through the "*Contact Us*" page.

Q27: Is the platform available in English?

Yes. ESI Séjour offers full bilingual support (English and French) but only for the Researcher portal. Use the language switcher in the navigation bar to toggle between the two languages at any time.

Q28: Where can I learn more about a specific feature?

Consult this FAQ, refer to the User Manual, use the AI chatbot on the landing page or in your researcher portal, or contact the DPGR Assistant for assistance.
